WEB DEVELOPER

Before becoming a developer I attended Portland State University where I received my Bachelors in Science & Business. I've always enjoyed building things, working through a problem, and finding the best solution along the way. I have been teaching myself web development for the past few years and am always eager to tackle a new challenge, while learning something along the way. My current focus is on front-end web development using primarily JavaScript, React, and CSS.

SKILLS

JavaScript / React / Redux
HTML / CSS / Bootstrap
Node.js / Express.js / Git
Visual Studio Code / Firebase
Python / PyCharm
Adobe Illustrator

EDUCATION

September 2007 - June 2012
Portland State University
B.S. General Science & Business

EXPERIENCE

May 2021 - Present
